## New Campus, New Opportunities

BAU Cyprus is proud to announce the development of its **new campus** located in the **Capital City of Nicosia**. The vibrant new campus will provide **modern teaching and learning spaces for undergraduate students of Bachelor's and Master's degrees**.

The building will host **state of the art learning technologies**, aiding students in their journey towards academic and professional success.

The new campus will be transformed for current and future students, providing a beneficial environment that suits all types of learners. We look forward to welcoming current and new students to the campus.

\* Private dorms under university management are available.

# GATE TO YOUR FUTURE

Bahçeşehir Cyprus University aims to prepare students for their future careers in the **globalized world** by providing them with an educational environment where they will study with the **international students who have different cultural and linguistic backgrounds**.

91,66% of our students are **International Students**.

**More time spent with academicians who are experts in their fields:** Learning in small groups, and close contact with the faculty members.

Average of 11,88 **Students in each Class**.

Average of 5,28 **Students per Instructor**.

In the **American model**, 4-year academic programs are carried out in accordance with the international standards, and with **increasing numbers of accreditation and recognitions**.

## Our Research Centers:

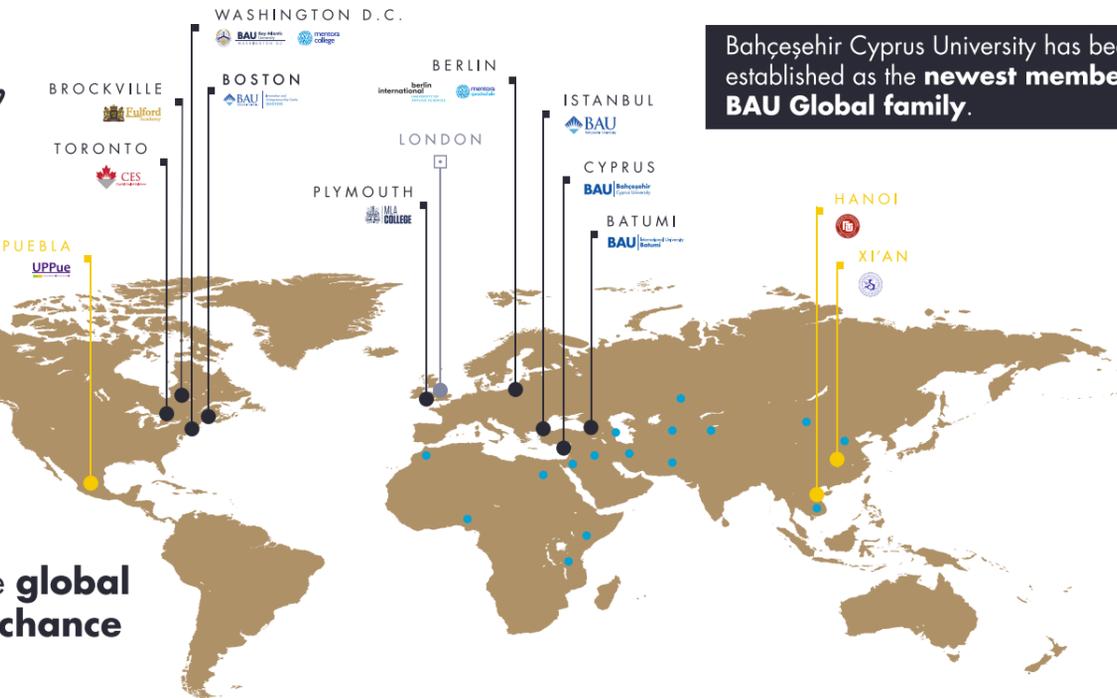

In addition to **printed and electronic resources** in our **Library**, you can find further opportunities to improve yourself with the trainings and workshops offered by the Continuing Education Center.

# Education Beyond Borders

With its locations throughout North America, Europe and Asia, BAU Global brings the best education practices together to raise global citizens who are committed to respect human rights, being considerate, and embracing multiculturalism. Our network includes 10 universities, 16 liaison offices, 4 language schools, 1 incubation center, over one hundred K-12 schools, and 1 international boarding school.

**BAU Global**

Bahçeşehir Cyprus University has been established as the **newest member of BAU Global family**.

You have the **global education chance at BAU!**

## Language Schools at the USA and Canada

The **medium of instruction** of all universities included in the BAU Global Education Network is in **English**.

Thus, in order to offer the best possible English language education to the students -whose levels are evaluated as insufficient by the standardized English proficiency exams- there are **English preparatory schools** within the universities.

In order to improve the English levels of these students, the BAU Global Education Network also offers English preparatory programs in two different **language schools**, which are located in **Toronto and Washington D.C.** and provides the students with the opportunity of **studying the English Preparatory Program in Canada or the United States of America**.

## Staff Exchange Program

Staff exchange can be conducted between the universities who have the cross curricular equivalence and are included in the education network.

Professors and researchers of the BAU Global Education Network visit Bahçeşehir Cyprus University with staff exchange program to share their knowledge and experience with our students.

## Student Exchange Program

The universities within the BAU Global Education Network exchange students on a regular basis for a period of one academic term. In this program, students can participate in **BAU International courses** under a special agreement between the universities, with the aim of harmonization of course contents, credits and mutual recognition of study achievements.

Under the framework of this network, students can spend 1 or 2 semesters in another country, experiencing different cultures.

**Bahçeşehir Cyprus University** offers contemporary higher education at World standards and gives the opportunity of studying at different campuses, in order to provide an international vision to the students.
